

“Jon Klimo and Pamela Heath have done it again—produced a book that is so broad in its viewpoints and so deep in its research and narratives that it cannot be compared to any other volume that concerns itself with the afterlife.... They have combined over 200 years of published material on the afterlife and on mediumship with traditions from the world’s great religious and spiritual teachings.... You get an overview here that summarizes human thought and feeling, fear and faith, in a style that is utterly fascinating and easy to comprehend. The book speaks clearly to all who question: ‘What happens to me after I die?’ An exceptional piece of work.”

—P. M. H. ATWATER, author of *The Big Book of Near-Death Experiences*, *We Live Forever*, and *The New Children and Near-Death Experiences*
